Bengaluru,
India
Chapter

ASIS International – Bengaluru Chapter is a leading professional body representing security practitioners across Karnataka, operating under the global ASIS International network. The chapter brings together experts from corporate security, risk management, and law enforcement to promote knowledge sharing and industry collaboration. Through regular seminars, workshops, and summits, it advances best practices in physical, digital, and enterprise security. With a growing member base of professionals and thought leaders, the Bengaluru Chapter is committed to strengthening India's security ecosystem and preparing organizations for emerging global threats.

Duranc Tech Services Pvt. Ltd. is a global technology company specializing in advanced Video Management Software (VMS) solutions, with offices in Hyderabad, India and Nashville, USA. The company empowers organizations to transform visual data into actionable intelligence, enhancing security, operational efficiency, and decision-making. With a focus on innovation, scalability, and user-friendly design, Duranc develops feature-rich, cost-effective VMS platforms that integrate seamlessly with modern security systems, helping businesses create safer, smarter, and more efficient environments worldwide.

BLUE & GRAY

Blue & Gray has quickly established itself as a trusted platform for knowledge sharing and industry engagement, delivering successful summits, webinars, and initiatives that have brought together thought leaders from across the country. Each milestone reflects our commitment to creating impactful conversations and building meaningful connections. With the strong momentum we've gained, we are excited about the road ahead new collaborations, bigger platforms, and even greater opportunities to make a difference. The journey has only just begun, and the best is yet to come.
